Comments	<input type="text" value="Whilst recognising there is need for housing in WGC and agree the council need to find areas to development, I don't believe the proposals for this particular site are appropriate per the current design The site proposals go against the ethos of the town which prides itself on its open spaces. The over development of this area, the height of the buildings, no real green space, no additional services or facilities for the residents are the reasons I object to this proposal. This development would look completely out of place in WGC"/>
