Comments	<input type="text" value="Here 289 units are proposed to house 852 people in a very restricted site, with building height to 9 storeys. This contradicts WHBC's very own vision for Broadwater Road west which was to integrate the spirit of the Garden City with the very best of 21st century design. There is absolutely nothing of the Garden City spirit here. The development is clearly seen from the west side Conservation Area, as well as from Hatfield House. It will compromise the Broadwater Road street scene, overpowering the art deco and Mirage developments to the south. It is inappropriate for a Garden City due to its large scale, high density of homes and minimal greenery. It has no kinship with our very unique town. This development offers only 216 parking spaces for 289 homes. There is no example where a development without adequate car parking has worked. Sir Ebenezer Howard would be appalled."/>
