Comments	<input type="text" value="These buildings are not at all in keeping with the ethos of our Garden City. Buildings far too high and far too densely packed. More suitable for a metropolis than our Garden City. Where are the green spaces. This is an opportunity to build low density housing in line with the rest of the locality. A chance to show the country that there is another way. We are living in a Show City, renowned around the world as a beacon of how things should be ordered. Let's not throw it away. Once built, then our unique character will be destroyed forever. This must not happen."/>
