| Comments | <input type="text" value="I am objecting to this application as I did to the other major applications 0181 and 3420 for the same reasons: density of proposed housing, the height and aesthetics of the build and the lack of infrastructure; the unsuitability for a garden city and particularly the cumulative impact given the above proposals; concern this will create high density, low amenity environments that will further deepen differences in the quality of living environments either side of the railway tracks. The cumulative effect if all three of these applications are approved will be to blight the town."/> |
