Comments	<input type="text" value="I have checked to the development for several reasons, firstly we do not need anymore high-rise developments using vast amounts of concrete and adding to the CO2 created full stop there is no A&E provision for Welwyn and Hatfield simply to add all this additional housing would put under pressure on the system. The roads are already clogged and full of traffic to add to this seems daft and there are no provisions for any additional school placements within the area which are already full to capacity"/>
