Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="It's totally ruining our garden city. Having these high rise blocks, it's all good and well housing thousands of people which I do agree there is a need for more housing including social housing however what is going to happen with the extra population of residents.. schools doctors hospitals? They're all full capacity anyway and we're trying to cram housing in whenever we can. This is going to affect my children's placements in schools as it will have an impact on catchment areas. We need to be spacing housing out to create our town to be well presented not to cram high rise blocks in anywhere we can. High rise flat blocks are ugly looking and is not fitting in with what our town looks like as a whole"/>
