Comments	<input type="text" value="I object to this development in its current form because I feel that overall the effect will be detrimental to the future of the town. The height and density of the buildings is completely out of keeping with the area aesthetically and does not follow the ethos or the spirit of the garden city idea. Many people in WGC have had to compromise on their own building wishes/projects in order to maintain and enhance the look and feel of the town for many years. This is an insult to those people and the efforts made to keep wgc a pleasant place to visit and help. It stand out from other towns."/>
