<b>Comments</b>	<input type="text" value="It is extremely disappointing that such developments are even being considered for our world renowned garden city. The proposals are totally in contravention of the garden city ethos. The infrastructure is not set up to cope with the additional population, traffic, congestion, schooling or social care. It appears very regrettably that absolutely no consideration has been given to the environment, the local wildlife or anything this once beautiful town represented and a complete disregard to the current residents and the heritage of the town. This is objected without condition we the residents will object until these decisions are overturned. The proposals are also against the councils own planing permission strategy. This needs to be stopped immediately and not permitted to proceed any further. The crime rate will soar, turning our beautiful town into just another run down ghetto, drug and crime heaven. An alternative and greener proposal would be to build houses with gardens."/>
