Comments	<input type="text" value="I object to the scale of the proposals, which I do not think are appropriate for the site or at all consistent with the ethos of the town. The new proposal increases the number of dwellings from 643 to 929 and building height to 10 storeys. This contradicts the Broadwater Road SPD limiting building to five storeys except in exceptional circumstances. The development will compromise the Broadwater Road street scene, overpowering the neighbouring art deco Griffin Place and Mirage developments. It is inappropriate for a Garden City, being too dense in nature and lacking greenery. It will be even more crowded than Manhattan in central New York (793 people per hectare compared with an average of 275 in Manhattan). It has no kinship with our unique town. It will house just over 900 more people than proposed in the 2019 application. The local infrastructure is inadequate to sustain this many extra people."/>
