Comments	<input type="text" value="This is an increase in the number of dwellings and building heights to 10 storeys. This is against the Council's own Plan which states buildings should not be over 5 stories. Overcrowding is bound to arise and there is no provision for the infrastructure to sustain this size of development. The Garden City as we all know will soon disappear, not as our founder envisaged 100 years ago... we all have to accept progress, but developments such as this will be going back to the overcrowding he fought so hard to rescue families from. There are other sites within our Borough which seem to have been ignored as far as proposed developments are concerned and they also have good public transport links. Perhaps the pain of development should be seen to be shared."/>
