Comments	<input type="text" value="I feel that this site development proposal is going against most of the principals of the wgc town planning. Most especially in relation to the green space (which has been reduced yet other planning permissions for local houses have been refused because of the impact on the green belt perspective), it is cutting down on the green space proposed previously. It is also ignoring original requirements of the site to have 5 stories maximum for housing / apartment development."/>
