Comments	<p>I am horrified at the proposal to put a ten story bulding in WGC. It is my understanding that five storeys is the limit except in exceptional circumstances. This development is completely contrary to the principles of the Garden City Movement and would have the likes of Ebenezer Howard and Sir Frederick Osborne turning in their graves. It is inappropriate for a Garden City, being too dense in nature and lacking greenery, one of the guiding principles of a Garden City. It has no kinship with the unique nature of the town. What other sites within the borough, such as villages with high public transport accessibility, have been considered for their suitability for development? Whilst I do not live in the town I grew to love it having worked in it for almost 30 years and still often go there. It would be an outrage if approval was given for this development.</p>
