Comments	<input type="text" value="Residential homes should not be built on what is supposed to be the commercial/industrial part of the town. For the size of land, there are far too many flats. The design appears to be blocks of flats with parking, surrounded on the edge by strips of trees. Not in keeping with a garden city. 69 1 bedroom flats will attract single, commuters into London. We should be providing more family homes which will benefit the town. The area is already prone to traffic congestion, without another 151 potential vehicles. There is nothing in this development which would enhance Welwyn garden City."/>
