

Comment for planning application 6/2021/1788/FULL

Application Number	<input type="text" value="6/2021/1788/FULL"/>
Location	<input type="text" value="Campus West The Campus Welwyn Garden City AL8 6BX"/>
Proposal	<input type="text" value="Installation of an air source heat pump"/>
Case Officer	<input type="text" value="Mr Raymond Lee"/>
Organisation	<input type="text"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="We object to the proposal as designed as we have not seen any analysis of the noise impact in Scholars Mews. We request a copy of the report please. It appeared to us at the time of the survey that the consultants monitored noise levels at street level in Scholars Mews and not in the back gardens of those properties that back onto Campus West. You state that the pump will not operate at night suggesting that if it did it would be a nuisance. Worrying! We would also like to see the addition of an acoustic barrier erected in the gap to the north of the proposed heat pump unit between the north edge of the 6 storey tower and the main theatre building as it seems to us that this is where the noise impact will be the greatest for Scholars Mews. As Scholars Mews is the only road affected by the noise levels from this installation will you be prepared to consult separately with representatives form Scholars Mews on this issue. We plan to independently monitor noise levels."/>
