Comments	<input type="text" value="Can the council tell us if they have carried out a study into the amount of use this car park will receive it seems to me that there are plenty of car spaces already within the town to accommodate new parking. Why do the council not consider restricting the amount of houses that they are building on the east campus to accommodate more parking on this site and can you tell us impact on current services ie schools, hospitals, roads, shops these extra houses are going to have. It seems the council wants to construct something that to me isn't in keeping with the present surrounds and will be detrimental to the surrounding area."/>
