Comments	<input type="text" value="The height reduction is not enough. The adverse impact on neighbouring properties is not being fully recognised & mitigated. Elements of the scheme must be adjusted & investment made to help protect residents & ensure they can continue to enjoy their properties. Additional measures to be implemented should include: 1. Restricted opening hours (i.e. not 24/7); Installing barriers & CCTV; Security. Without these measures in place disruptive & anti-social behaviour, especially late at night, will be inevitable. 2. Building further away from Woodside House (5m+); Installing low-level, dimmed, lighting on top deck; Planting an extended depth of evergreen shrubs along Ayot Greenway; Installing solid cladding to Northern & Western elevations. Without these measures in place residents will suffer unacceptable views of the car park with additional & adverse noise, light & air pollution. Any approval should include an irrevocable condition that no further decks can be added at a later date."/>
