<b>Comments</b>	<input type="text" value="As a resident of Bridge Rd I object to the proposed new car park at Campus West. It seems wholly unnecessary as the current car park is very rarely full and there is ample room in the existing Howard centre and Hunters Bridge car parks. But if as seems to be expected, these new spaces are utilised, then more vehicles = more air pollution and more noise. It is completely out of keeping with the ethos of a Garden City town. Your noise level studies dismissed Bridge road as having ambient noise levels (due to the passing traffic) higher than they believe the proposed car park will bring. But if more vehicles use the car park that would mean more traffic on the road to get to the car park, therefore more frequency of noise and more air pollution."/>
