| Comments | <input type="text" value="The lighting and sheer number of cars will cause additional pollution to residents. Proposed barriers do not provide sufficient screening from car park/cars to local residents. The campus west car park is in contradiction to Section 16 of the 2019 NPPF 'Conserving and Enhancing the historic environment' and Policies D1 and D2 of the adopted Welwyn Hatfield District Plan (2005) which seek to provide a good standard of design in all new development and require that all new development respects and relates to the character and context of the area in which it is to be sited. There is no need for extra parking within Welwyn garden city and the council should be moving towards environmentally friendly policies, rather than encouraging car usage."/> |
