<b>Comments</b>	<input type="text" value="I add to my comments, I have previously submitted, following the additional information submitted on 16 November 2021 concerning lighting. The most recent documentation does not change in any way what I have previously written. The new documentation talks about a curfew but gives no time that the curfew starts and finishes. The deck lighting continues to be too high and the cladding remains insufficient to prevent light, noise and air pollution. The design needs to be altered so it does not have a detrimental impact upon the local environment and residents."/>
