

Traditional Canopy with Arches

Maximum open span projection 6m

This style of canopy is a stylish addition to the standard Traditional Canopy that we offer.

With a mono-pitch roof, this style of canopy is ideal for a wider drive way / area. This canopy can be installed to the sides of a house or bungalow using brackets and can also be totally free-standing having posts on both sides.

Installation of Traditional Carports takes 4 - 8 hours (1 day) dependent on size. (Very large or awkward shaped carports may take longer to fit, this will be advised to the customer at the time of order).

Traditional Apex Canopy

Open span projection up to 12m max

Pro Port Canopies is proud to have designed a sleek, contemporary, modern looking canopy to suit your coverage needs.

Made from steel, galvanised and powder coated in ANY colour to suit individual project requirements, the Apex Canopy is a strong versatile product that offers maximum coverage.

Ideal for school dining areas, storage and car washing services - the possibilities are limitless. Pro Port Canopies offer a totally bespoke service where tapered areas can now be covered with ease.
